

PRODUCT DESCRIPTIONS

PRODUCT NAME: AUTOMATED SANITIZING BOOT  
(germs, virus and bacterial control box)

CHEMICAL COMPOSITION:

- Sodium Hypochlorite NaOCl, with the use of concentration recommended by W.H.O which is less than 5%.

CHEMICAL USE:

- Refillable (A refilled chemical can last for the duration or period of One Month).

EFFECT HUMAN SYSTEM:

- Neutral and stain-free on any surface and or material.

DELIVERY:

- Within a minimum of 1 week

COMPONENTS:

- Storage Tank capacity 25~50 Liters,
- Motion Sensor Detector,
- Diaphragm Pump
- Mechanical Vaporizer

Please make reference to the varieties of products with full specifications.

PRODUCT WARANTY: ONE YEAR

PLACES TO BE DEPLOYED: Government Houses, Schools, Event Centre's, Churches and Mosques, Banks, Market Places, Parastatals and Agencies etc.
